

# ANNUAL REPORT 2021

# IN2LIFE

IN2LIFE INC AS THE OPERATOR OF A PBI

# WHO WE ARE

In2Life was established in 2001 to provide support initiatives for youth at risk of excessive drug use, suicide, homelessness, offending or early school dropout.

Knowing that we can achieve more together than we can on our own in 2019 we partnered with like-minded organisations, including Stride Education, Streetlight Community and more recently the Melbourne Youth Bus.

In2Life now provides creative solutions and programs that improve the social and economic capabilities of at-risk Young People, offering a continuum of services from outreach support to prevention programs in schools, through to long term mentoring.

## PURPOSE

Our Purpose is to provide a nurturing community where young people can feel safe and free of self doubt, where anxiety is replaced with self-confidence and self-respect.

## VISION

Our vision is for young people to be part of a community in which they have the opportunities and support to reach their full potential, where they can feel they are no longer forgotten or undermined and where they are given a sense of their own importance and the power to change their circumstances.

# FROM THE CEO

## Mark Watt AM

As the CEO of In2Life, I am well aware of the state of mental wellbeing of many young people in Australia.

We work closely everyday with vulnerable young people who are socially isolated, live in difficult home situations or struggle with anxiety making them at risk of even poorer health and wellbeing outcomes.

During the pandemic we joined the long list of mental health services and support services stretched to their limit due to demand. Despite the challenges, it is with much pride that I can say we have continued to make an impact thanks to our team.

Our passionate and determined team, made up of staff and volunteers, has gone above and beyond the ensure we continue our work supporting as many young people, their families and the community.

The past year we have taken a fresh look at how we can support young people, reviewing and continuously developing all our programs.

Moving into the new year we are feeling optimistic about the future for In2Life as a strong, sustainable organisation. Guided by our strategic plan, ongoing evaluation and solid governance, our team will continue to deliver a suite of preventative programs creating opportunities for young people to have a brighter future.

# OUR PROGRAMS

STREETLIGHT

The Adaptor Project

Stride Education delivers social and emotional wellbeing, and career transition programs to students, teachers and parents.

Streetlight is a youth outreach located in SA aimed at building relationship, developing trust and discovering potential within the lives of young people in the community.

Melbourne Youth Bus provides youth outreach in the Melbourne CBD for homeless young people, providing a positive space for prosocial community connections

The Adaptor Project is a learning experience designed to foster wellbeing and social entrepreneurship among cohorts of students, teachers, educators, parents, local councils, community partners and industry leaders.

Mo Media is a modern, state of the art personal development and welfare program for schools.

# STRIDE EDUCATION

## OUR VISION

"To see a transformed community where young people are empowered to reach their full potential."

**STRIDE.  
EDUCATION**  
UPSKILL.EMPOWER.THRIVE.

Stride Education has now been delivering Social and Emotional Learning programs Australia Wide for over 35 years.

During the past couple of years our programs remained as strong as ever due to the long-standing relationships with schools and our reputation for providing engaging, relevant and impactful workshops to both teachers and students.

With school closures and uncertainty about the future the team worked quickly to convert all programs online. This included wellbeing and career transitions. We have continued to offer both face to face and online workshops as required.

Covid-19 greatly impacted Australian Students. In 2020, several schools we work with reached out in crisis. Their students were dis-engaged, highly anxious, complaining of loneliness and social isolation.

In addition, when students returned to school prior to our prolonged lockdowns they added that their students' emotional maturity and social cohesion had regressed.

Students had forgotten basic social and classroom management skills. These social and emotional deficiencies have in turn negatively impacted academic performance, attendance and student as well as teacher wellbeing.

In light of these complaints, we upgraded our existing Supportive Friends program to include more resources for mental wellbeing and mindset, social skills, conflict resolution and online social management.

We look forward to seeing how we continue to be present in the lives of at-risk young people out in the community in 2022 to help them further reach their potential.

# STREETLIGHT

## OUR VISION

"Empowering young people to reach their full potential"

## STREETLIGHT

Streetlight is a youth outreach aimed at building relationship, developing trust, and discovering potential within the lives of at-risk young people in the community.

Streetlight continues to partner with the local Playford Council, enabling us to connect weekly at two local skate parks. We provided a positive presence, making these spaces safer and more welcoming for young people. With healthy food options, games and activities, volunteers encouraged participation and conversations, helped fix scooters, and assisted with emergency backpack supplies for those doing it tough.

Our weekly assertive outreach at the local shopping centre in Elizabeth continued to engage local at-risk young people with positive role models. Later in the year we were even able to expand operations south to Colonnades in Noarlunga thanks to some funding from Wellbeing SA.

After the success of our Street Eats initiative in 2020, Street Art was birthed - an art therapy initiative where 10 young people engaged in 20 sessions, learning, and expressing themselves through, a variety of artistic techniques.

Streetlight has found new ways to connect young people with services and provide life-skill training. We hosted a senior first aid course for volunteers and young people. We hosted a relationships card game "party" (designed specifically for Streetlight's youth who have experienced grooming and abuse) that opens up conversations around how to recognise warning signs in relationships and what to expect from a healthy relationship.

We look forward to our continued journey with at-risk young people in the Elizabeth and Noarlunga communities in 2022; utilising new and established paths to assist them in reaching their full potential."

# MELBOURNE YOUTH BUS

## OUR VISION

"To see "at risk" and vulnerable young people have the opportunity to unlock their potential, creating a brighter future for themselves and their community"

The Melbourne Youth Bus supports young people on the city streets of Melbourne by providing safe and welcoming place at night when many other options are unavailable to them.

Melbourne's Central Business District (CBD) attracts a large numbers of young people on a daily basis.

Moreover, many young people at-risk of homelessness, living in Out-of-Home Care, involved in the Youth Justice System, and/or engaging in at-risk behaviours (e.g., substance misuse) occupy and use public spaces in the CBD to congregate and establish connections.

In 2021 In2Life acquired the bus and continues to run the service, currently going out regularly on a Friday night.

Along with a team of professional youth workers and trained volunteers the bus continues to support homeless and at risk young people with material aid, counselling and referral to specialist services that operate during business hours.

The plan for moving into 2023, is to increase the service and operate in other areas as needed.
